

# Mantax Blue

## Classic Diameter Precision

The Classic Mantax Blue Calipers feature non-reflecting aluminium scales with clear, non-wear digits. Print is on both sides, light weight and rugged. Adjustable jaws and adapted for use with the red Gator Eyes laser pointers. Easy to follow instructions on how to assemble and adjust the jaws included with each caliper. Mantax Blue ships in flat custom sized boxes for reduced freight and storage costs. A simple, smart, durable and economic choice of diameter caliper!

## Important Caliper Facts

Haglöf Sweden's Mantax Blue and Mantax Black Calipers offer a choice between the largest variety of scale graduations and lengths. Products are proven functional and reliable that last for years in any tough environment. Tested by independent institutes, PTB and FPA approved. When you require function, durability and ruggedness, for reliable field measurements in the most demanding environments on land or sea, Mantax is the caliper for you. Custom printed scales available upon request.

- **Non-reflecting Aluminium scale**
